

Five colour schemes for the new website

Every image in this document is the real website with only the colours changed. The layout and wording stay exactly as they are.

To choose: reply with the option letter, for example “Option B”.
To mix: say which parts you like, for example “B’s background with D’s button”.

OPTION A

Sterling Navy & Gold

Classic British finance. Reads as established, careful and premium — a firm you trust with your bills.

OPTION B

Evergreen Forest & Lime

Money-green and fresh. Says 'savings' at a glance, modern without feeling like a start-up.

OPTION C

Clarity Midnight & Blue

Clean corporate blue, close to a bank or fintech. The safest, most familiar choice.

Most businesses overpay on five bills at once.

Send us three bills. Within 7 working days you get a written audit of what you pay for card processing, energy, telecoms and banking — five bills, against the market, with our comparison disclosed in pounds on every recommendation.

Our fees

Brokers are paid by suppliers. That is the model, and there is nothing wrong with it — the problem is that almost nobody tells you the number. We publish how we are paid on every category, and the pound figure on every line of your report.

Our services

- Card payments
- EPoS & till systems
- Business energy
- Telecoms & broadband
- Business banking
- Business insurance
- Business finance

How it works

Four steps, and only one of them is yours.

No discovery call, no qualification process. You send bills, we send a document.

Send us the bills

We rebuild your real costs

You get the report

We hold your renewal dates

Our fees

You never pay us. Here is who does.

Brokers are paid by suppliers. That is the model, and there is nothing wrong with it — the problem is that almost nobody tells you the number. We publish how we are paid on every category, and the pound figure on every line of your report.

Work out what a percentage point is costing you.

These numbers you already have. The result is different, not a guide — but it is usually enough to decide whether the audit is worth five minutes.

Monthly card turnover £25,000

Your current effective rate 1.75%

Total charges on your last statement £438.00

Comparison rate 1.30%

Get this rate you want to test against. It's not a quote from ABCA — your audit gives you the figures from your bank.

Get your real numbers

Service categories

- Industrial units
- Restaurants & takeaways
- Convenience & retail
- Pubs & bars
- Bistros & bakers
- Garages & MOT centres
- Gyms & studios
- Care homes
- Offices & professionals

Four things a comparison site will not do.

- You get a document, not a screenshot
- Our commission is on the page
- We hold your renewal dates
- We work from your actual figures

What clients say

Two ways to earn from the audit.

Both are built on the same thing: a document your client keeps, whether or not they buy anything.

Referral partners

Accountants, bookkeepers, if providers and business consultants who already pay for client purchases. You introduce, we audit, you get a report your client thanks you for.

Field agents

Experienced merchant services and energy agents who want a part to play from and report that same data. You send the report, we do the analysis and the paperwork.

QUESTIONS

The things people ask first.

- Something not covered here? Call and ask. No form here.
- What does the audit cost?
- What do I actually receive?
- Do I have to switch anything?
- What do you need from me?
- How do you keep my bills secure?
- Is ABCA regulated by the FCA?
- Are you registered for data protection?
- How is this different from a comparison site?
- Do you cover industrial units and warehousing?
- What happens after the report?

Send us three bills. Keep the report either way.

It takes about five minutes at your end. Nothing to change, nothing into review, and nobody calls you unless you ask.

Our fees

Brokers are paid by suppliers. That is the model, and there is nothing wrong with it — the problem is that almost nobody tells you the number. We publish how we are paid on every category, and the pound figure on every line of your report.

Our services

- Card payments
- EPoS & till systems
- Business energy
- Telecoms & broadband
- Business banking
- Business insurance
- Business finance

We are paid by suppliers. Here is how much, and when.

Every broker in this market is paid this way. The difference is that we tell you the number before you decide, not after — and not only if you ask.

THE PRINCIPLE

A recommendation you cannot check is not a recommendation.

If you do not know what a broker earns from an option, you cannot tell whether it was recommended because it is best for you or best for them. That is why, on every recommendation, we publish how we are paid.

Our fees page

Read the homepage left column first, then middle, then right.

OPTION E

Regal Aubergine & Rose

Distinctive and warm. Stands apart from every blue-and-green comparison site in the sector.

OUR FEES

We are paid by suppliers. Here is how much, and when.

Every broker in this market is paid this way. The difference is that we tell you the number before you decide, not after — and not only if you ask.

THE PRINCIPLE

A recommendation you cannot check is not a recommendation.

If you do not know what a broker earns from an option, you cannot tell whether it was recommended because it is best for you or best for them. [This is why we publish our fees before we publish our recommendations.](#)

WHAT WE AUDIT

Seven lines. One report.

Every weekend a UK business can realistically change, checked against the market on the same document.

Card payments
Terminal rental, terminal and PCI+ sales, gateway and PCI charges.

EPoS & till systems
License fees, hardware finance, support contracts and integration.

Business energy
Gas, electricity and water — unit costs, standing charges, renewal dates.

Business banking
Overdraft fees, cash handling, transaction charges and FX margins.

Business insurance
Cover review and introduction to an authorized broker.

Business finance
Cost of borrowing review and introduction to authorized brokers.

Not sure which apply?
Send us your last year's bills. We tell you which lines are worth auditing and what we already compare.

HOW IT WORKS

Four steps, and only one of them is yours.

No discovery call, no qualification process. You send bills, we send a document.

SEND US YOUR BILLS

WE REBUILD YOUR REAL COSTS

SECTORS

A takeaway and an industrial unit have nothing in common on cost.

Which lines matter, and in what order, changes completely by sector. We start from the profile rather than a generic checklist.

Industrial units
Warehousing, light manufacturing, workshops and trade counters.

Restaurants & takeaways
High card volume, heavy gas and electricity, heavy parking fees.

Convenience & retail
Card handling, credit card, cash and EPOS systems.

Pubs & bars
Third payments, card handling, cash and EPOS systems.

Bakers & bakers
Card volume per shift, baking, delivery, fuel and energy.

Garages & MOT centres
Third volume power, compressed air, parts, finance and liability cover.

Gyms & studios
Bouncing, cycling, training and facilities, membership software.

Care homes
Complex card, banking and catering, national connectivity.

Offices & professionals
Complex, high costs, banking and FX, other cover.

Our fees page

Read the homepage left column first, then middle, then right.

What happens after you choose

The chosen scheme is applied across every page of the site, including the forms, the legal pages and the image shown when the site is shared on social media. Every option has been checked so that text stays easy to read for people with low vision (WCAG AA contrast). Small adjustments to any colour are quick to make.

	SCHEME	FEEL	COLOURS
A	Sterling Navy & Gold	Classic British finance. Reads as established, careful and premium — a firm you trust with your bills.	
B	Evergreen Forest & Lime	Money-green and fresh. Says 'savings' at a glance, modern without feeling like a start-up.
